LUMA® Certified Teacher

SKILLS

Design Leadership & Strategy

Team Building, Mentorship, Storytelling,
Cultural Leadership, Stakeholder Management,
Strategic Thinking, Vision, Problem Solving,
Innovation, Design Thinking, Design Ops,
Presentation, Facilitation, Biz Dev

Service Design

Journey Maps, Service Blueprints,
Ecosystem Maps, Systemic Thinking

Product Design (Digital)

Design Systems, Visual Design,
Interaction Design, Prototyping, Wireframing,
Information Architecture, Site Maps,
Responsive Design, UI Patterns,
Component-based Design, Accessibility,
Figma, Sketch, Material Design, Apple HIG,
HTML/ CSS, Developer Handoff

User Research (UXR)

Problem Framing, Hypothesis Development,
Session Facilitation, Ethnographic Interviews,
Surveys, A/B Testing, Usability Testing,
Data Analysis (Statistical & Qual),
Insight Synthesis, Empathy Maps,
Personas & Archetypes, Jobs To Be Done

Program & Project Management

Project Planning & Scheduling,
Task & Resource Management,
Risk Management, Backlog Management,
Budget & Time Management, Delegation,
Software Development Lifecycle &
Methodologies, Software Architecture,
Programming, Quality Control, Version
Control, Document Management,
Collaboration, Negotiation, Problem Solving,
Decision Making, PMBOK, Agile, SCRUM,

RECENT WORK HISTORY

Principal Designer
Design Strategy, Product Design

I founded a bespoke design consultancy focused on delivering astonishing simple interfaces. We ensure design in intent is carried through to product release through tight integration with development teams. Recent projects have included:

One Sprint Beyond **Since February 2022**
📍 Charleston, SC

Adjunct Instructor
of Human-Computer Interaction

I guided 45 Master's Students of Human-Computer Interaction through their capstone projects at the premier institution for the discipline. The program integrates service and design thinking to prepare students to guide the future of human and technology interactions.

Carnegie Mellon University **August 2022 January 2020**
📍 Pittsburgh, PA

Director Consulting Expert
Human-Centered Design

I delivered insight-driven and outcome-based engagements by leading design teams on design strategy and user experience projects for international clients for one of the largest IT and business consulting services firms in the world.

CGI **February 2022 January 2021**
📍 Pittsburgh, PA

Digital Architect
Senior Subject Matter Specialist

I created and staffed the Human-Centered Design capability at this mid-sized technology consultancy, integrated that capability throughout our service offerings, and consulted as a senior subject matter expert in design.

SDLC Partners **December 2020 July 2016**
📍 Pittsburgh, PA

Senior Design Engineer

I worked in multi-disciplinary teams (engineers, interaction designers, researchers, and visual & communication designers) to help our clients tame the complexity of their products and systems.

MAYA Design **June 2016 January 2015**
📍 Pittsburgh, PA

VP for E-Business
Systems Architect

From the position of Senior Software Engineer, I moved progressively through positions of increasing responsibility to become Vice President for eBusiness. I operated the Java Enterprise Center of Excellence for a 3500 person, publicly-traded consultancy with Profit & Loss responsibility. I was responsible for the local business development strategy and delivered steady growth with extraordinarily low turnover.

ICF International **July 2011 September 2006**
📍 Charleston, SC
